

POWER UP your PowerSchool®

— *Is your District getting the most out of PowerSchool®?*

South Carolina's new PowerSchool® system will help your District save time and money only if you make sure the data gets to where it's needed. ANCGroup has strategically partnered with Level Data to deliver seamless data integration between your critical District applications.

ANCGroup will help to maximize your PowerSchool® investment by...

- ✓ **Assisting with PowerSchool® pre-migration planning.**
 - Ask the right questions of PowerSchool implementation team to insure a successful setup.
 - Avoid the cookie-cutter installation approach and set it up the way the District operates.
 - Avoid costly reconfigurations to make sure PowerSchool is setup correctly the first time.

- ✓ **Facilitating better district scores and school report cards by improving the quality and availability of your data.**
 - Verify data accuracy and consistency by applying data rules and validations to the input process.
 - Replicate only Validated Data to other applications.
 - Populate all of your critical applications automatically, thus dramatically decreasing the time it takes to make critical applications and services available to students and staff.

- ✓ **Seamlessly transferring data between applications.**
 - Reduce administrative costs by facilitating horizontal data transfers between instructional and business applications.
 - Enter key information once and automatically populate the same information into multiple applications.

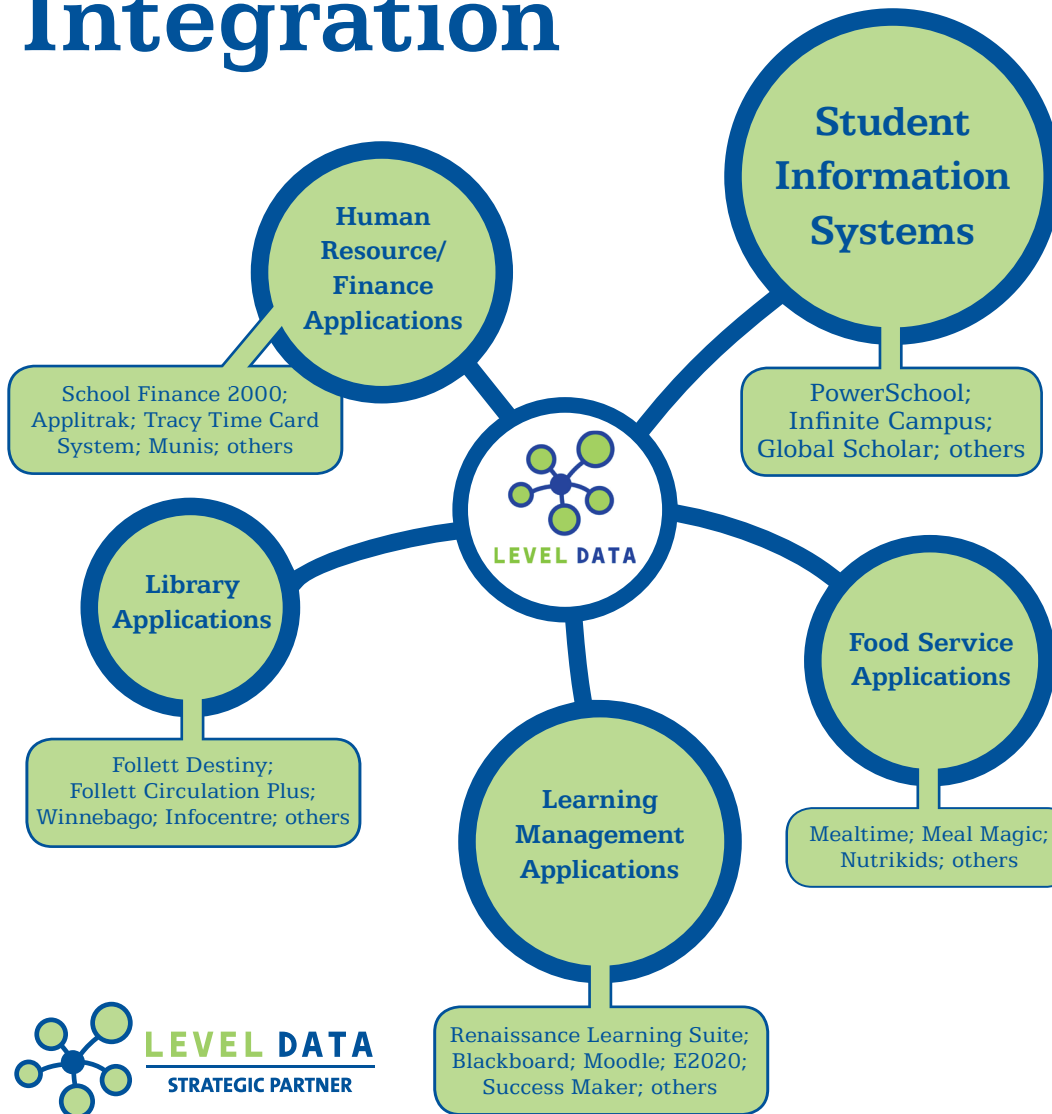

- ✓ **Providing 24/7 server support and optimization.**
 - Identify system problems before your students, staff or parents do.
 - Resolve system issues before it impacts end-user access.

- ✓ **Delivering years of PowerSchool® support experience.**
 - ANCGroup and its Strategic Partners provide significant expertise in PowerSchool support for the District.
 - ANCGroup reduces costs associated with PowerSchool deployment by efficiently delivering quality support to help resolve any system outages or problems.
