

# POWER UP

## your Student Information System

— *Is your District getting the most out of its SIS?*

Your Student Information System will help your District save time and money only if you make sure the data gets to where it's needed. ANCGroup has strategically partnered with Level Data to deliver seamless data integration between your critical District applications.

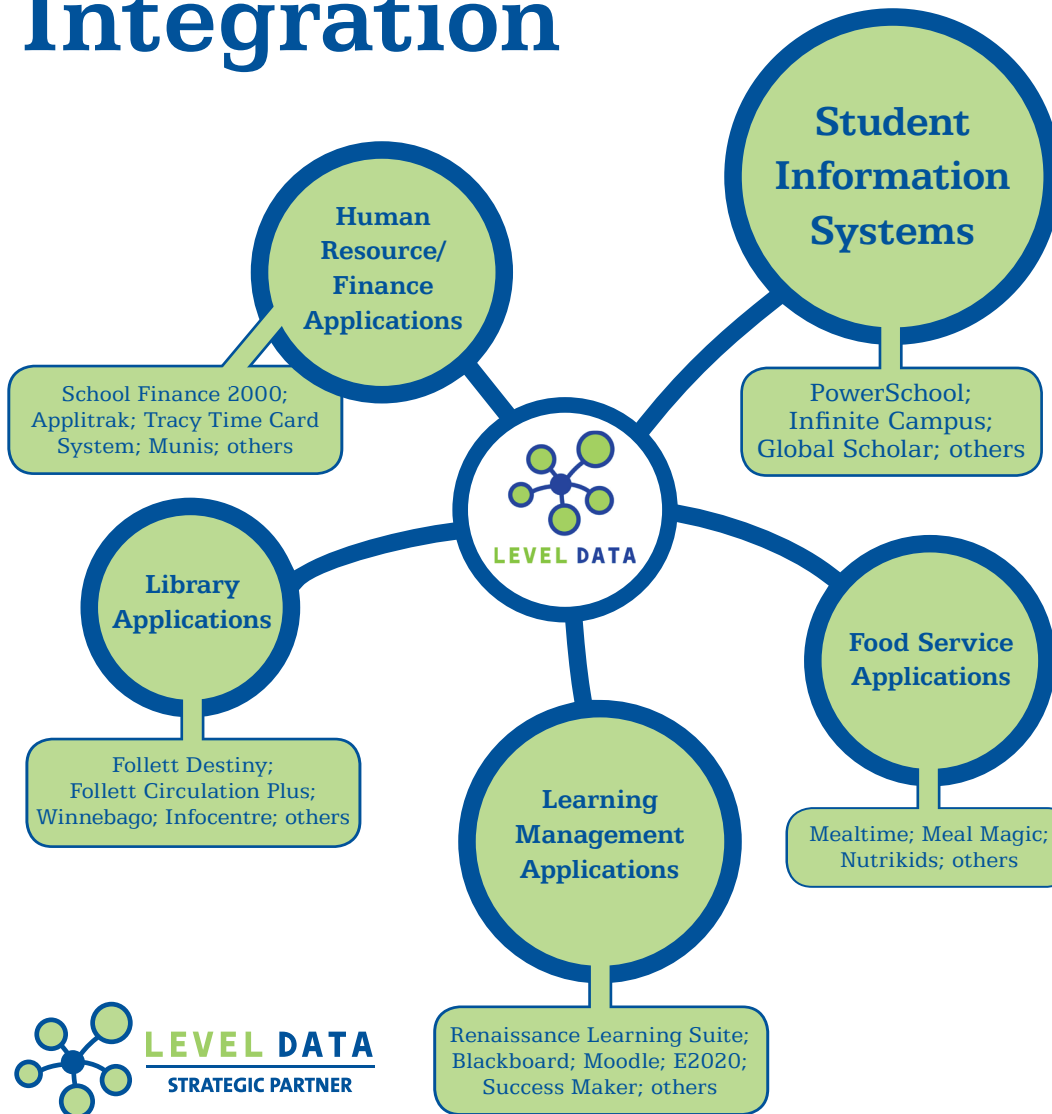

**ANCGroup will help to maximize your new or current Student Information System by...**

- ✓ **Assisting with all SIS pre-migration planning.**
  - Ask the right questions of the application implementation team to insure a successful setup.
  - Avoid the cookie-cutter installation approach and set up any SIS to match the way the District operates.
  - Avoid costly reconfigurations to make sure the application is set up correctly the first time.
- ✓ **Facilitating better district scores and school report cards by improving the quality and availability of your data.**
  - Verify data accuracy and consistency by applying data rules and validations to the input process.
  - Replicate only Validated Data to other applications.
  - Populate all of your critical applications automatically, thus dramatically decreasing the time it takes to make critical applications and services available to students and staff.
- ✓ **Seamlessly transferring data between applications.**
  - Reduce administrative costs by facilitating horizontal data transfers between instructional and business applications.
  - Enter key information once and automatically populate the same information into multiple applications.
- ✓ **Providing 24/7 server support and optimization.**
  - Identify system problems before your students, staff or parents do.
  - Resolve system issues before it impacts end-user access.
- ✓ **Delivering years of SIS support experience.**
  - ANCGroup and its Strategic Partners provide significant expertise in SIS support for the District.
  - ANCGroup reduces costs associated with SIS deployment by efficiently delivering quality support to help resolve any system outages or problems.

**Proudly Serving School Districts for Over 10 Years!**
